# WELCOME TO OXDOG PADEL WORLD

Oxdog’s first padel collection clearly shows why we decided to go into padel. The collection and the products consists of new innovations and a new way of thinking that separates us from other brands. Extensive knowledge and experience in technical products/materials, game improving features and top-notch details are what makes OXDOG products special. Every detail is designed to improve and help your game. The products in the collection are suitable for players at any level, both on and off the court.

We are only in the beginning of very exciting journey and we would like to thank everyone who has been a part of the development work in several countries but especially in Spain and Sweden. We would also like to thank all the players and coaches that believed in us from the start.

Work continues... Others will follow!

***“When playing the Oxdog rackets I can really feel that the innovations and the new technology are helping me in different parts of my game. I love the balance of the rackets, the absence of vibrations as well as the finish in every single detail.”*** — Ramiro Choya, padel legend

## RACKETS FULL OF INNOVATIONS

A simple yet exact specification that shows the performance of the products in an easy and understandable way.

### POWER-CONTROL

Four different levels of play features, each optimized for best playability from Power to Control.

### SHAPE

With aggressive frame constructions we cover all play styles. Diamond is our most powerful collection, Drop has extra top power and wider sweet spot & our Round has very good control and is likely the most powerful and well balanced round racket in the market.

### BALANCE

The two frame balance options makes your racket give extra power, balance or a combination. With the RBS (Racket Balance System), you can tune the balance further to fit your personal playing style.

### MATERIAL

The unique HES-Carbon reacts faster and transfers maximum energy into speed, power and increased durability. Oxdog unique carbon and resin process optimize the fibers performance.

### DURAL MOULDED

With an extensive focus on tooling and production process our frames deliver top performance and durability, PowerRibs™ makes it even more optimized.

### POWERRIBS

The PowerRibs™ in combination with the HES-Carbon transfers the power into higher speed and better durability. Each shape collection has its own position for maximum performance.

### VIBRADAMP

Our unique Vibradamp system with a three-layer design. Vibradamp fiber in the middle of the handle to absorb vibrations, four silicon inserts (removable) for extra protection from vibrations and a two layer-construction with PU-top layer for best tackiness, embossed surface for maximum grip and perforation for sweat absorption. The Vibradamp reduces stress on your wrist, elbow and shoulder.

### SILENTSPEED

The revolutionary Oxdog SilentSpeed Technology™ takes the padel game to the next level with the PowerRibs™ that transfers your power into higher speed with less effort, sound and increased ball control.

### RBS — RACKET BALANCE SYSTEM

The stainless weights changes the balance point. The top 4g gives more top balance and the lower 8g a more even balance that also gives less stress to your wrist and shoulder. Lower weight removable with a screw.

### DSH — DOUBLE SIZE HOLES

Double Size Hole pattern was created for the best grip, power and balance. DSH improves the playability outside the sweet spot and at the same time maximizes the power.

# HES-CARBON

## HIGH ENERGY SYSTEM

The unique HES-Carbon reacts faster and transfers maximum energy into speed, power and increased durability.

Oxdog unique carbon and resin process optimize the fibers performance and is especially effective in extreme products.

The more demanding challenge the better HES system works!

# POWERRIBS™ TECHNOLOGY

The PowerRibs™ in combination with the HES-Carbon transfers the power into higher speed and better durability. Each racket shape has its own position for maximum performance.

- Diamond** top position to give the optimal power and balance
- Drop** mid position to enlarge the play area and increase power
- Round** low position to transfer the power higher up for more speed

The 4 extra silicon inserts give extra protection from vibrations (removable).

2-layer construction with PU top layer for best tackiness, embossed surface for maximum grip and perforation for sweat absorption.

Vibradamp fiber in the middle of the handle absorbs vibrations.

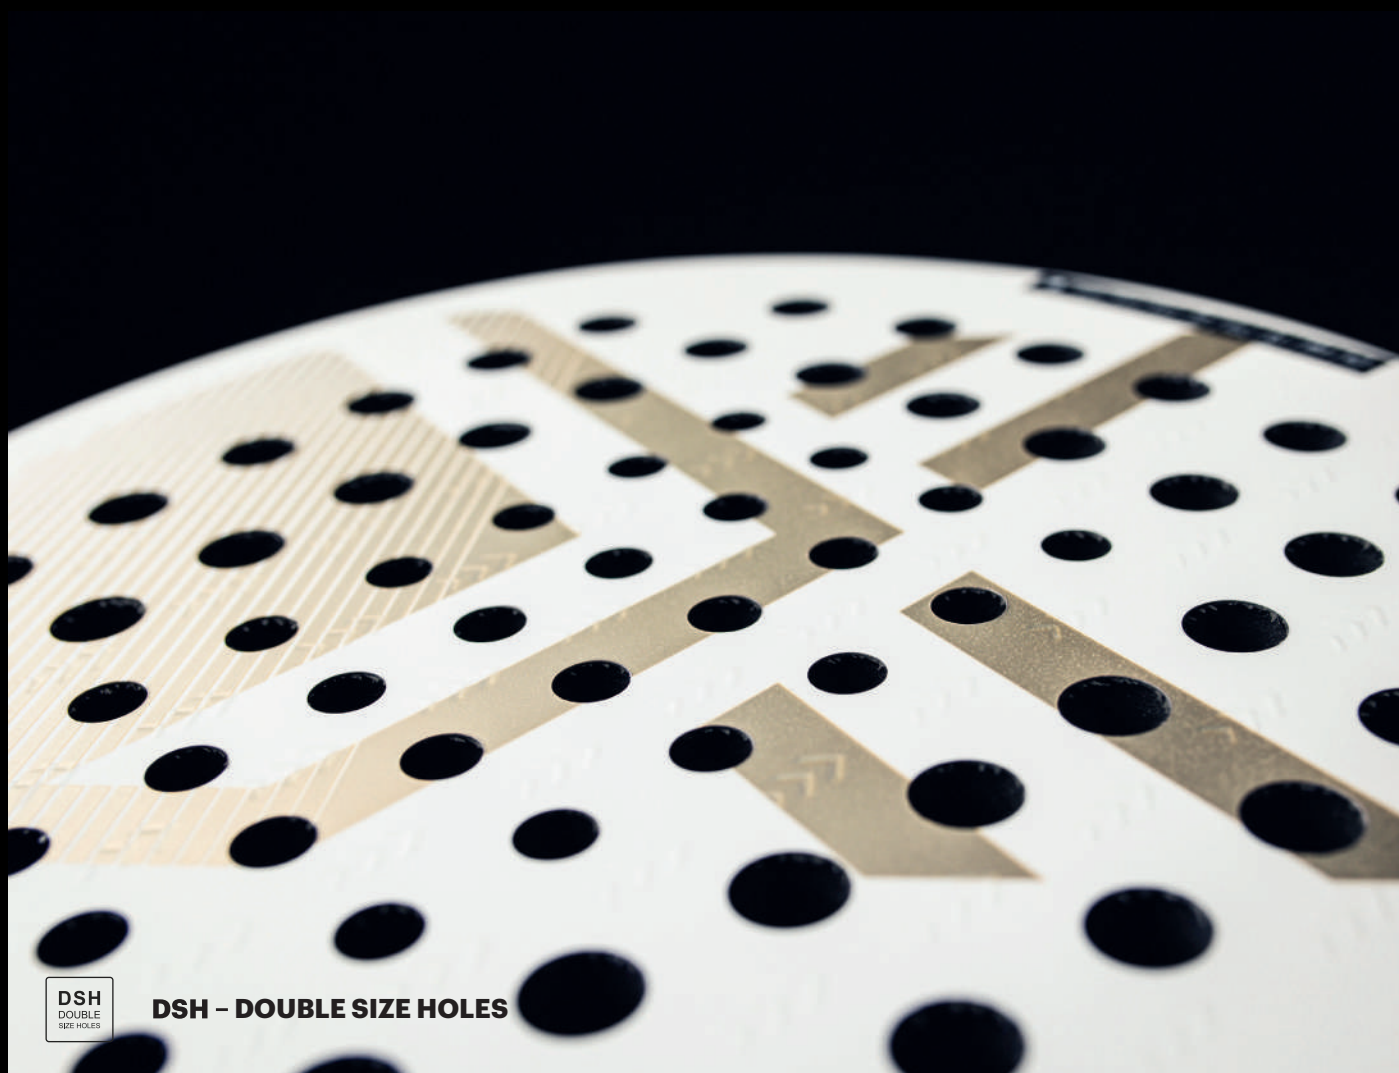

**VIBRADAMP**

# VIBRADAMP™ SYSTEM

Our unique Vibradamp™ fiber in the middle layer of the handle absorbs vibrations and the four silicone inserts on the outside just wraps it all up to perfection. Vibradamp™ reduces stress and helps you to perform better on a higher level!

# DSH - DOUBLE SIZE HOLES

Each sport category has its details. With the RBS you get the possibility to tune the racket so it fits your personal style perfectly.

The stainless weights changes the balance point, the 4g top weight give more top balance and the lower 8g give a more even balance that also reduces stress to your wrist. The 8g weight is removable and attached by a stainless screw, 4g is attached by 3M adhesive.

# RBS™ - RACKET BALANCE SYSTEM

Each sport category has its details. With the RBS you get the possibility to tune the racket so it fits your personal style perfectly.

The stainless weights changes the balance point, the 4g top weight give more top balance and the lower 8g give a more even balance that also reduces stress to your wrist. The 8g weight is removable and attached by a stainless screw, 4g is attached by 3M adhesive.

# SILENTSPEED™

## TECHNOLOGY

The no1 high performance padel innovation is here!

The revolutionary Oxdog SilentSpeed Technology™ takes the padel game to the next level with the PowerRibs™ that transfers the power into higher speed with less effort, sound and increased ball control. HES-Carbon makes it all perfect!

# ULTIMATE COLLECTION

## POWER WITH DIAMOND

Oxdogs innovative diamond collection. The perfect combination of new technology and functional performance that will make you perform on a higher level.

PowerRibs on the top of the racket for maximal power and balance. DSH improves the playability outside the sweetspot. RBS with two removable stainless weights that makes it possible to customize the balance of the racket.

Vibradamp fiber in the middle of the handle to absorb vibrations, four silicon inserts (removable) for extra protection from vibrations and a two layer-construction with PU-top layer for best tackiness, embossed surface for maximum grip and perforation for sweat absorption. The Vibradamp reduces stress on your wrist, elbow, and shoulder.

HES-Carbon that reacts faster and transfers energy into speed/power and also increases the durability of the racket.

# HYPER COLLECTION

## BALANCE WITH DROP

Oxdog's unique drop shaped racket collection! Well balanced rackets that will help you in the defensive as well as the offensive game. PowerRibs in mid position enlarges the playing surface and increases power.

The DHS pattern increases balance and spin as well as improves the playability outside the sweet spot. RBS makes it possible to customize the balance of the racket. HES-Carbon that reacts faster, transfers energy into speed/power and increases the durability.

Vibradamp fiber in the middle of the handle to absorb vibrations, four silicon inserts (removable) for extra protection from vibrations and a two layer-construction with PU-top layer for best tackiness, embossed surface for maximum grip and perforation for sweat absorption. The Vibradamp reduces stress on your wrist, elbow, and shoulder.

## CONTROL WITH ROUND

Oxdog's unique round shape models combines supreme control and power. The round shape with really good balance and control works great in the defensive game and suits the beginner as well as the experienced player. Probably the fastest round racket in the world.

PowerRibs in the bottom part of the racket and HES-Carbon adds power/speed in the offensive game. The DHS pattern increases balance and spin as well as improves the playability outside the sweet spot. RBS makes it possible to customize the balance of the racket. HES-Carbon that reacts faster, transfers energy into speed/power and increases the durability.

Vibradamp system with a three-layer design.
